Electrician Apprentice

currently enrolled in electrical engineering degree program

Electrician Apprentice with **4+ years of experience** in electrical systems design and installation including high voltage safety standards. Expertise in all aspects of facility, process, and inventory management. Conversant in many disciplines. Experienced heavy equipment operator with Class A CDL License.

- Industrial Three Phase Motor • Wireless RF Communications • LAN • Rotem Computer
- Environmental Control Systems • Ventilation • Plumbing and Well Pumps
- Welding M.I.G. & stick
- Conducted baseline assessment, redesign systems for improved efficiency and set **quality standards**
- **Promoted** to Plant Operator within **first year** of employment
- Reduce asphalt waste resulting in **\$66,000+ annual savings**
- **Averted disaster** through effective containment of a plant fire, securing staff safety and company assets
- First student in school's history to be **appointed to Drum Captain as a freshman**

Servant leader with an eye on continuous improvement and an appropriate sense of urgency.

Parker Poultry, Hillsboro, Georgia

2006 – Present

Operations/Facilities Manager

Manage top-producing Purdue poultry operation **producing 650,000 broilers annually**, earning **best in class** and commanding top-dollar. Regularly achieve **97% retention**.

- Discovered deficiencies in ventilation and temperature regulation systems, **re-design system** to improve heating **efficiency**, **reduce** energy **costs by 20%**, and increase quality and size of livestock.

Electrical Project Manager

Manage facility **remodeling** and **system upgrade** operation for external clients throughout Georgia to ensure government compliance and increase operating efficiency. Conduct needs analyses. **Lead** seven-member **project teams**.

- **Design and install electrical systems** and electronic equipment including software upgrades, structure demolition and replacement, framing, roofing, feed lines, water lines, fans, powered ventilation systems, recirculating evaporation systems, analog light dimmers, static pressure measuring equipment, cabling and wench systems, and plumbing upgrades.

C. W. Matthews Contracting, Marietta, Georgia

2004 – 2006

Bituminous Plant Operator

Operate hot mix asphalt facility producing up to **2,000 tons per day**. Perform routine and **emergency maintenance** on asphalt plants. Operate PM 96 plant controls, weigh mate 2000 load-out system. Enforced lock-out/tag-out safety procedures.

Bituminous Plant Operator (continued)

- Enacted **emergency procedures** in response to **plant fire**, **protecting workers** and company **assets**, **avoiding potential explosion**.

Equipment Operator (C. W. Matthews Contracting continued)

Class A **CDL licensed** operator.

- 966G Caterpillar loader
- D7 Caterpillar bulldozer
- D8 Caterpillar bulldozer

Groundman

Perform maintenance on plant equipment. **Inspect asphalt to identify defects** and take **corrective measures**. Ensure proper functioning of plant equipment, performing repairs such as **welding** as needed.

Parker Construction, LaFayette, Georgia

2000 – 2004

Construction Carpenter

Market and promote business, generating bids and completing contract labor. Provide **full-scale remodeling**.

- Roofing, vinyl siding, tile, hardwood, laminate flooring installation
- Cabinet construction and installation

Education

DeVry University, **Electrical Engineering** BS program of study, anticipated graduation - 2012

LaFayette High School, LaFayette, Georgia, 2000

Extracurricular Activities

Drum Captain 4 years
